
DAOM Student

Short-Term Housing & Transportation Resources

We have gathered the following information in an effort to introduce you to some of the resources Austin has to offer. While the organizations listed below can provide students with many different kinds of support, we, in no way, claim this to be a comprehensive list. Nor do we explicitly endorse any of these organizations. We welcome suggestions for updates and additions and hope this information is useful to you.

Short Term Rentals:

AirBnB:

Airbnb is a social website that connects people who have space to spare with those who are looking for a place to stay. Short-term rentals are common, and you can come back and stay in the same place repeatedly. Guests write reviews of the hosts, and the hosts write reviews of the guests. They put a lot of effort into safety measures, and the site has received favorable reviews from people we know.
