

Credential Evaluations

Recognized Providers:

AOMA accepts credential evaluation reports of foreign academic credentials from the following providers. We do not specifically endorse any one service. We recommend choosing a service that responds to your initial request promptly and cordially, and allows you to speak with a customer service representative throughout the evaluation process. If you are seeking to transfer in courses AOMA does require a course-by-course evaluation. If you are not seeking to transfer any courses towards AOMA's degree program, a general transcript evaluation demonstrating degree received, will suffice.

AOMA recommends students select one of the following recognized providers:

Foreign Credential Service of America - www.foreigncredentials.org

World Education Services - www.wes.org

Global Credential Evaluators, Inc. – www.gceus.com

**American Association of College Registrars & Admissions Officers (AACRAO®)
www.ies.aacrao.org**

Educational Commission for Foreign Medical Graduates (ECFMG®) www.ecfm.org
(For foreign medical degrees & credentials)

AOMA will also accept an evaluation from member organizations of the National Association of Credential Evaluation Services (NACES®) www.naces.org or the Association of International Credential Evaluators, Inc. (AICE®) www.aice-eval.org.
